Re : AQUAFIN PRODUCTS

July 9, 2008

Dear Alfred,

I just wanted to inform you of the wonderful success I have had recently using Aquafin products. They have exceeded my expectations for the projects on which I have used them. These materials are fantastic to work with and their results are amazing!

The enclosed photos disc of The Edison-Ford Estate swimming pool in Fort Myers, Florida displays the stunning finish I had wished to achieve on this job.

Your resources are much needed tools in my profession and I plan to utilize them on a continual basis for my upcoming work. They are a genuine asset to the industry.

Thank you again for introducing me to Aquafin's exceptional building products and for all of the effort that your team puts into their clients' concerns to ensure their complete satisfaction.

Sincerely,

A handwritten signature in blue ink, appearing to read "Charlie Dickson". The signature is stylized and includes a large circular flourish.
