

PRO-Tekt

Ultimate Protection for Parking Decks

www.aquafin.net

SEAMLESS PROTECTION WITH PRO-Tekt AUTO

Sealing a concrete parking deck is essential to the longevity and durability of the structure. Aquafin's PRO-Tekt AUTO fluid applied polyurethane traffic membranes provide ultimate protection against the elements such as water, snow, salt and daily wear and tear from traffic.

WHY choose PRO-Tekt AUTO for your parking garage?

Waterproof & Vaporproof

- Protects concrete from water and leaks.
- Protects rebar steel.
- Can be installed safely on 5 day old concrete.

Rapid Return to Service

- Chemical cure systems for fast return to service.
- Cures quickly even at cold temperatures.

Seamless

- Monolithic application to reduce the risk of water intrusion.
- Enhances aesthetics.

Elastomeric

- Designed to withstand movement typical in parking garages.

Durable & Sustainable

- Ultra robust systems with slip resistant finishes.
- Low maintenance and easy renewal.
- Extends the life of concrete structures.

Environmentally Friendly

- Contributes to LEED Credits.
- Low odor, solvent free and zero VOC's.

Reliable

- Backed by an industry leading warranty.
